

Question 1 Part 2

Report on Last Month Order Details For a Specific Product

Product Name :

Sl.#	Product Name	Order Date	Order Qty	Order Value (Rupees)
1	XYZ	Jan/17/2022	5	4000.00
2	XYZ	Jan/15/202	15	3500.00
3	XYZ	Jan/19/202	15	2500.00

Create another UI Interface for order details during date interval.

1. Provided a select box populated with product name from Product_Master table.
2. After selecting any product name, upon clicking on fetch orders button, a report must be generated in a tabular format showing orders placed during the last month (i.e. if the current date is 11/Feb/2022, projected report must show orders placed on month of January'2022 only) in descending order of order value, on selected product name, also make sure the report data formatting must be intact as shown in above image.
